GOVERNOR OF FORT ST. GEORGE.		
Governor of Fort St. George.—The Honorable Court have learnt with deep regret that the state of the health of the Marquis of Tweeddale will make it necessary that he should leave the seat of Government and be absent five or six months; they refrain from adopting any other arrangements to meet the exigency of the case than what is conveyed in the legal opinions forwarded for the guidance of the Government, and feel assured that the several members of the Board will cordially co-operate with each other to diminish, as far as possible, the inconvenience necessarily attendant on their temporary separation. MEMORANDUMS—*continued.*		
By the President.—Suggests a modification in the last para. of the draft order, and observes that the same course appears to have been followed by this Government as precedents show, and that he is willing to give any further modification that may be proposed his best consideration	27th Jan.	16
By the Honorable H. Chamier, Esq.—Considers it necessary that the opinion of the Advocate-General should be requested as to the manner in which the Enactment 39 and 40, Geo. III, Cap. 79, Sec. 12, is to be carried out, and particularly upon certain points enumerated. With a clear understanding of the mutual responsibilities and duties of the Members of Government foresees no difficulty in carrying on its business during His Lordship's absence	27th Jan.	17
By the President.—Sees no grounds for a reference to the Advocate-General in regard to the conduct of business during His Lordship's absence, and is of opinion that the Government should be guided by the precedents on record	27th Jan.	18
By the Honorable H. Chamier, Esq.—States that if the Members of Government decline to make a reference to the Advocate-General, or to submit the case for the instructions of the Government of India, he will, for reasons stated, be compelled to make his own reference for advice and instructions	27th Jan.	19
By the Honorable H. Dickinson, Esq.—Thinks that if the Government require any further advice on the subject, they should seek it from the Honorable Court, but sees no necessity whatever for a reference, and regrets that any doubt is raised as to the mode in which business is to be conducted during the absence of the Most Noble the President, as it cannot be doubted from the terms used, that the Honorable Court contemplate the carrying on the duties of Governor in communication with his Council	27th Jan.	20
By the President.—States that considering the Honorable Court's orders plain and distinct, and in accordance with the views taken of them by the Junior Member of Council, sees no necessity for for a further reference of any kind	27th Jan.	21
By the Honorable H. Chamier, Esq.—States the circumstances under which he has been compelled to resort to the aid of the highest legal authority at Madras for an interpretation of the Act 39 and 40, Geo III, Cap. 79, Sec. 12, and that the Chief Justice's opinion is to the effect that no act of Government can be required to be submitted to the Governor when on the Hills; that so long as he is there, all the acts of Council are valid without his assent or approval, and that the entire authority of Government is vested for the time being with the Senior Member of Council. Observes that the course imposed by law is now clear, and that he is happy to think that there is nothing to prevent the administration from being carried on with harmony and efficiency at the Presidency, and in communication with the Most Noble the Governor, as far as circumstances will admit	27th Jan.	22

By the President.—Proposes the appointment of A. Hall, Esq., as a member of the College Board	13th Oct.	16
——— Proposes the appointment of Sir H. C. Montgomery, Bart., to officiate as Secretary to Government until further orders	20th Oct.	40
——— Would propose to nominate Mr. S. Crawford provisionally, pending the orders of the Honorable Court, to be Secretary of the Madras University, and to act as Secretary to the College Board on a salary of Rs. 500 per mensem; and observes that nothing would induce him to name Mr. Crawford to any appointment unless he had considered a subordinate ministerial office open to him under the Court's order	27th Oct.	49
——— States that in proposing the appointment provisionally of Mr. Crawford, he intended to bring the question under the consideration of the Members of Government, and that if not concurred in, there would be no difficulty in selecting another individual for the joint duties of Secretary to the University and College Boards. Deems it right to say it was in consequence of the proposal of the President of the University on behalf of Mr. Crawford that he placed his nomination before the Members of Council	27th Oct.	50
By the Honorable H. Chamier, Esq.—Apprehends that it is not competent to the Government, under the Honorable Court's orders, to appoint Mr. Crawford, even temporarily or provisionally, to any situation in the Company's Service, without the permission of those authorities	27th Oct.	51
By the Honorable H. Dickinson, Esq.—Doubts whether the Honorable Court in their despatches on the case of Mr. Crawford contemplated his being nominated to so subordinate an appointment as that of Secretary to the University and College Boards, and believes their restriction to apply only to the superior offices in the service. Thinks Mr. Crawford might be appointed to the duties in question, subject to the approval of the Honorable Court, and in consideration of his circumstances the Government might strongly recommend his being pronounced eligible to hold an inferior and subordinate appointment ..	27th Oct.	52
By the President.—As a doubt is entertained and a question raised as to the competency of the Government to appoint Mr. Crawford even provisionally to an office, suggests that the matter be referred, without delay, for the instructions of the Honorable Court, and proposes the nomination of Mr. A. J. Arbuthnot to officiate as Secretary to the University and College Boards until further orders	27th Oct.	53

By the President.—Views as improper the proceeding of the President of the University in directing Mr. White, during the period he acted as Secretary to the Institution, to draw the full salary of the office without previously obtaining the sanction of Government. Is of opinion that the President and Governors should be warned against a similar course, and that a moiety of the allowance should be passed to Mr. White under the rules in force, the excess drawn being refunded	22nd Dec.	21
——— Proposes the appointment of T. V. Stonehouse, Esq., as a member of the College Board	22nd Dec.	8
APPOINTMENTS AND EDUCATION.

Smith proceeded to the Cape on sick certificate	21st Apr.	26
COLLEGE AND UNIVERSITY.		
By the President.—Proposes certain alterations in the offices of the College Board and University Secretaries, and requests a statement showing the financial result of the arrangement proposed and its effect on the allowances of Captain Rowlandson ..	15th Sept.	24
By the Honorable H. Dickinson, Esq.—Concurs with the President in the expediency of the arrangement proposed regarding Captain Rowlandson's allowance	15th Sept.	25
By the President.—Lays before the Council two memoranda showing more fully the grounds of his recommendation to continue Captain Rowlandson in the office of Government Agent at Chepauk, and that his whole time should be devoted to those duties, and also a detail of that officer's allowances. Would submit, for the final instructions of the Honorable Court, the above arrangement with reference to their orders conveyed in their financial despatch, dated 30th January, No. 1, of 1844 ..	15th Sept.	26
GOVERNOR OF MADRAS.		
By the President.—Lays before the Board the letter he addressed to the Chairman of the Honorable Court relative to the necessity of his temporary absence from the seat of Government ..	27th Jan.	14
——— Having referred the question of his temporary absence to the Honorable Court, and having their orders, is of opinion that each member of the Government is bound to act in accordance with them. Doubting the propriety of the course pursued by which the matters under the consideration of the Government have been brought under cognizance and review of the Chief Justice, would request the orders of the Honorable Court whether it is their wish that the views of the Chief Justice at this Presidency should be interposed in questions before the Board, and whether it is competent for him to authorize his legal opinion to be placed on the records of the Government as a guide for its decision when that opinion has not been officially asked. Questions if it could be sanctioned by law that the Governor, when called away by emergent duty as Commander-in-Chief in his own Presidency, should thereby lose all power and authority, &c. These questions being, however, for the decision and orders of the Court, would request the Senior Member of Council to favor Government with his intentions and the proceedings he proposes to adopt upon the Governor's leaving Madras	27th Jan.	23

MINUTES—*continued.*	1846.	
GOVERNOR OF MADRAS—*continued.*		
By the Honorable H. Dickinson, Esq.—Concurs most fully in all that has been stated in the Most Noble the President's minute. Is decidedly opposed to any other authority whatever than the Court of Directors being consulted on the occasion. With reference to the concluding para. of the Senior Member's minute, will refrain from making further observations on the subject, until that member shall have distinctly informed the Board of the mode in which he thinks that the powers of the Governor (including patronage) are to be exercised during the absence of the President from Madras	27th Jan.	24
By the Honorable H. Chamier, Esq.—Under circumstances stated, observes there is no course open to him but to act strictly according to law, and to prepare a statement in detail of all that has passed on the subject for the information of the Hon. Court, with whom he doubts not he shall find abundant justification of the course he has been compelled to pursue on this occasion. .	27th Jan.	25
——— Reviews the subject of the proposed mode of conducting the business of the Government during the absence of the Most Noble the President, and states the circumstances under which he was forced to have recourse to the opinion of Sir Edward Gambier on the question	17th Feb.	7
By the President.—Does not consider necessary to do more than to call the attention of the Honorable Court to the further papers on the subject of the mode in which the business of Government should be conducted during the President's absence, and again to request their early and specific instructions. States that he could not understand certain expressions in the Honorable Mr. Chamier's minute in any other light than as conveying an intention of acting in opposition to the majority of the Board, and that he considered the Honorable Court should have early intimation of the position the Government might be placed in immediately upon his leaving the Presidency	17th Feb.	8
——— Intimates his intention of leaving the Presidency on a tour into the Provinces and to the Neilgherry Hills on the 9th May; directs the issue of the usual notices in consequence, and proposes that the duties of the Govt. be carried on in the mode originally suggested by him and approved by the Hon. Court.	12th May.	16
LEAVE OF ABSENCE.		
By the Honorable H. Dickinson, Esq.—Enumerates the departments which, in his opinion, might be authorized to grant leave of absence to public officers not in the Covenanted Service of the East India Company without special reference to higher authority	13th Oct.	9
PROVINCIAL SCHOOLS.		
By the Honorable H. Chamier, Esq.—States that he is glad to see a gentleman of Mr. F. M. Lewin's acknowledged talents and high character in the service advocate the establishing of Provincial Schools, and notices the great advantages that would be derived from education in the provinces, under competent masters. Thinks that the University Board might be asked whether qualified masters can be procured, and if so, that a school should at once be authorized at Combaconum. Considers it very unsatisfactory to dispose of Mr. Lewin's letter by telling him, as proposed in the draft order, that the education of the people in the provinces is receiving the most anxious consideration of Government, when, in fact, the subject has been long ago fully considered, and nothing more is required than to move forward like all the other Presidencies	13th Jan.	10

	Dates of Proceedings.	Nos.

PROVINCIAL SCHOOLS—*continued.*		
By the President.—For reasons stated, considers the reference to the President and Governors of the University, as to whether qualified masters can be procured with a view of at once establishing schools in the Tanjore district, to be unnecessary, and is of opinion that, in measures connected with general education in the provinces, the Council of Education should be consulted.	13th Jan.	13
By the Honorable H. Chamier, Esq.—With reference to the Chief Secretary's explanation, states that he is satisfied the Honorable Court will think with him that the proper course was to record his minute with the letter from the Judge of Combaconum out of which it arose, and to which it had special reference, and to read it again when the President might be prepared to record his sentiments, at all events, when it is intended to defer the consideration of a minute, intimation of such intention should at least be given to the writer of it. Remarks upon the manner in which the Chief Secretary has commented on a portion of his memorandum which had been crossed out in ink, and was not properly subjected to observation	13th Jan.	15
By the President.—Does not consider the terms in which the Chief Secretary has made his explanation regarding certain proceedings of Government, which the Honorable Mr. Chamier alleged to be objectionable, suitable to the occasion; but trusts that the frank manner in which he has expressed his regret, for whatever may be considered by the Senior Member of Council to be objectionable, will be satisfactory to that gentleman as it would have been to himself	13th Jan.	17
By the Honorable H. Chamier, Esq.—Adheres to his opinion, that when a member intimates his intention to record a minute on a draft in circulation, if passed by the majority of the Board, the draft should not be despatched until his minute has been seen by all the members of Government; if not so passed, there may be no necessity for recording a minute, and states how he will be compelled to act if an opposite course is to be observed. Cordially responds to the sentiments expressed in the Most Noble the President's minute of the 19th December 1845, and gives the Chief Secretary full credit for his very natural desire to keep himself right in the eyes of the Board	13th Jan.	18
By the President.—Approves the measures proposed by the Council of Education for establishing schools in the provinces for general education in English and the Vernacular languages, and the prominence given to the study of the former; and on the grounds noticed, approves also the rule recognizing the Bible as a class-book. Offers suggestions as to the formation of reading classes, and recommends, on the proviso adduced, raising the standard of education. Before issuing, however, any orders for introducing the Bible, would submit, for the instructions of the Honorable Court, the expediency of applying the same rule to the University as well as to the Provincial Schools. Authorizes the selection of Masters for four or six schools and leaves it, at the discretion of the Council of Education, to fix the salary of each at a sum not exceeding Rs. 400 according to their qualifications	15th Sept.	29
SENIOR MEMBER OF COUNCIL.		
By the Honorable H. Chamier, Esq.—Submits a medical certificate recommending his proceeding to the Neilgherries, and states that continued indisposition compells him to seek a temporary relaxation from business, but that if, under the orders which may hereafter be received from the Honorable Court, there should be immediate occasion for his services, he will not fail to return without delay, the state of his health admitting of it ..	17th Apr.	43
